THE NETWORK OF FAMILY PLANNINGS

OF THE

ASST BRIANZA

Sistema Socio Sanitario

Regione
Lombardia

ASST Brianza

ABOUT US

The Family planning is a basic public territorial service with free access.

It offers interventions of primary prevention and health care - psychological and social to protect the health of the individual, the couple and the family in the different phases of life.

It guarantees an integrated multi-professional approach of the social-health activities to take care of the person in its entirety.

The team

The team is made up of gynecologists, psychologists, social workers, midwives, nurses and physician assistants, educators.

ACTIVITIES OFFERED FOR THE PROMOTION OF INDIVIDUAL AND FAMILY WELL-BEING

- Welcome and orientation interview for the start of the most appropriate path responding to the needs of the person.
- Gynecological and obstetrical examinations with ultrasound assistance.
- Obstetrical examinations (low-risk pregnancy).
- Health consulting for contraception, pregnancy, menopause.
- Pap-test for the prevention of cervical cancer.
- Abortion: health, psychological and social assistance in implementation of L.194/78.
- Psychosocial counseling and support to the person and family relationships.
- Support interviews for fragile maternity/paternity.
- Individual and group support to biological and adoptive parenting.
- Family mediation.
- National and international adoption :

Information desk, investigations on behalf of the Juvenile Court, support interventions in the post adoption period.

- Projects in favor of families in fragile conditions: Regional and/or State measures.
